

SN 10/807,021

P-2528

R E M A R K S

Claim 1 and Claims 3 to 20 are retained in the application. Of these, Claims 13 and 14 have been withdrawn in response to the restriction requirement made in the previous Office Action dated December 4, 2005.

In the Office Action dated September 25, 2006, it is noted that the Examiner has indicated that the claims are directed to patentably distinct species wherein Claims 1, 3 to 12 and 20 are directed to a door assembly classified in Class 49 (Species I); and that Claims 15-19 are drawn to a door assembly classified in Class 16 (Species II).

Pursuant to 35 USC 121, Applicant herein elects Claims 15-19, identified as Species II.

Claim 15 is considered to be generic to the forms of the inventions disclosed in Figs. 5, 6, 9 and 10, and as to the door assembly Claims 5, 6, 7, 10, 11 and 12.

Claim 1 is considered to be a generic claim readable on the elected species, as well as on all the disclosed door assembly species.

Claims 13 and 14 are also considered to be sub-combination claims generic to the elected form of the invention identified as Species II.

In view of the foregoing comments, Applicant hereby

SN 10/807,021

P-2528

traverses the restriction requirements. In addition, it is submitted that the search for the respective species is co-extensive, regardless of the specific species classifications noted by the Examiner. Therefore, the restriction requirement should be withdrawn.

Respectfully submitted,

ARTHUR T. FATTIBENE,
Attorney for Applicant
